| Abstrak | Tinderpaw is a social media app to connect pet lovers, owners and pet adoption centers as a community. It helps the pet community to solve problems with just a fingertips. |
| Objektif Projek | <ol style="list-style-type: none"> 1. Help stray and adoption animals find their homes. 2. To connect pet lovers, owners and pet adoption centers. 3. To give a helping hand for those who need help with their pet. |
| Potensi Projek | Based on a survey done in January 2021 ,there are about 3 pet owners in 5 people in Malaysia . Beside that the number of people wanting to adopt furry animals during Movement Control Order (MCO) – has risen. Tinderpaw able to help those pet owners requesting for pet food, getting instant solutions online from other users, asking for adoption and posting about pet mating. Due to the chances of people adhering and getting pets nowadays, Tinderpaw has a big potential to succeed in our lives. |
